# TRANSFORMING EDUCATION TOGETHER

## ABOUT TITAN PARTNERSHIP

Titan Partnership, an education charity in Birmingham, has been enriching education for over 35 years. It has a rich history of supporting schools, developing staff, and inspiring students through its dedicated membership network that brings together education at all levels across the city.

As a community, we have crafted a membership offer that meets the current and future needs of education in Birmingham, continuing with what works and adding **more of what matters**.

Focused spotlight sessions on specific areas such as mental health and wellbeing, child criminal exploitation, artificial intelligence in education, financial planning, T-Levels and apprenticeships run alongside our core membership meetings and working groups.

Recognising our unique network of primary and secondary schools, FE colleges, and HE institutions, we are bringing Birmingham education together with cross-phase networking events and member socials to work collaboratively to better Birmingham's education landscape.

Through our partners and employer links, we will continue to inspire and encourage young people to find their futures, whatever this may be, with the return of our in-person careers and skills fairs, complimented by our nationwide accessed virtual fair and employability programmes and challenges for students and young people.

Now in its 19<sup>th</sup> year, the Titan Aston Olympians Primary sporting event has continued to raise aspirations through sport. We are delighted to announce that we will expand on this with a dedicated SEND day and a secondary- specific SEND sport challenge.

Taking lessons from managing one of the city's successful SEND Developing Local Provision Projects, we have crafted a new SEND offer for schools that offers support, training, and resources to continue helping those pupils most in need and, importantly, the SENDCos supporting them.

We will continue to offer our monthly student award that recognises young people who have excelled in school. Our student art competitions will continue to encourage creativity. Winners receive prizes and certificates of participation and achievement.

For over a decade, we have brought together our members for an evening of celebration and awards at our annual Awards & Charity Dinner, recognising staff and student achievements and raising money for our charity. This year, we will also be hosting the Titan Expo, providing a great opportunity to meet education-focused businesses and organisations from across Birmingham and the UK, bringing everyone together to continue to transform education in our city.

As a charity, we are aware of how tight budgets are, so we are again freezing our membership fees for 2024-25.

We hope that you can see the added value and will join the Titan community this academic year.

# WORKING TOGETHER, MAKING A DIFFERENCE

For over three decades, Titan has supported education across Birmingham by leading discussions, providing a space for collaboration, and collectively working together to drive positive change.

Our calendar of meetings, working groups, and spotlights ensures that our members feel supported, guided, and heard throughout the academic year. Our adaptability means that we flex with the needs of our members, our city, and education at a national level.

We also recognise the importance of creating solid and meaningful relationships, so we are introducing our larger cross-phase networking events and member socials, which will bring education together across Birmingham.

## Headteacher Meetings

Top-level discussion and support for schools across our network. A collaborative, safe space for leaders to focus on the issues that matter. Meetings are held half-termly. Breakfast and refreshments are provided.

## Senior Leader Meetings

Bringing together deputy and assistant headteachers to support each other, create a space for networking and development, and play a key role in pushing forward network objectives.

### **Careers & Skills Meeting**

This cross-phase meeting brings together schools, careers leads, FE, HE and businesses to ensure that we collectively support young people to find their futures. Meetings include the latest careers-focused updates, opportunities and guest speakers from careers education and business.

### **Post-16 Working Group**

This group ensures all young people are supported, regardless of their post-16 pathway. It brings together post-16 staff from across sixth forms, colleges, and universities. The group provides the latest updates, support, and opportunities.

### **SENDCo Leads Working Group**

Bringing together SENDCo leads from across Primary and Secondary to share best practice and receive support, training and opportunities to continue supporting SEND young people. Titan also manages the SEND Developing Local Provision for the Aston & Nechells Consortium and works closely with other DLP projects across the city.

### **Recruitment and Retention Working Group**

This working group brings together leaders in school and Titan's initial teacher training experts to ensure that we continue to grow a teacher talent pipeline for our schools and create strategies for continued professional development to upskill and retain staff.

# TITAN SPOTLIGHTS

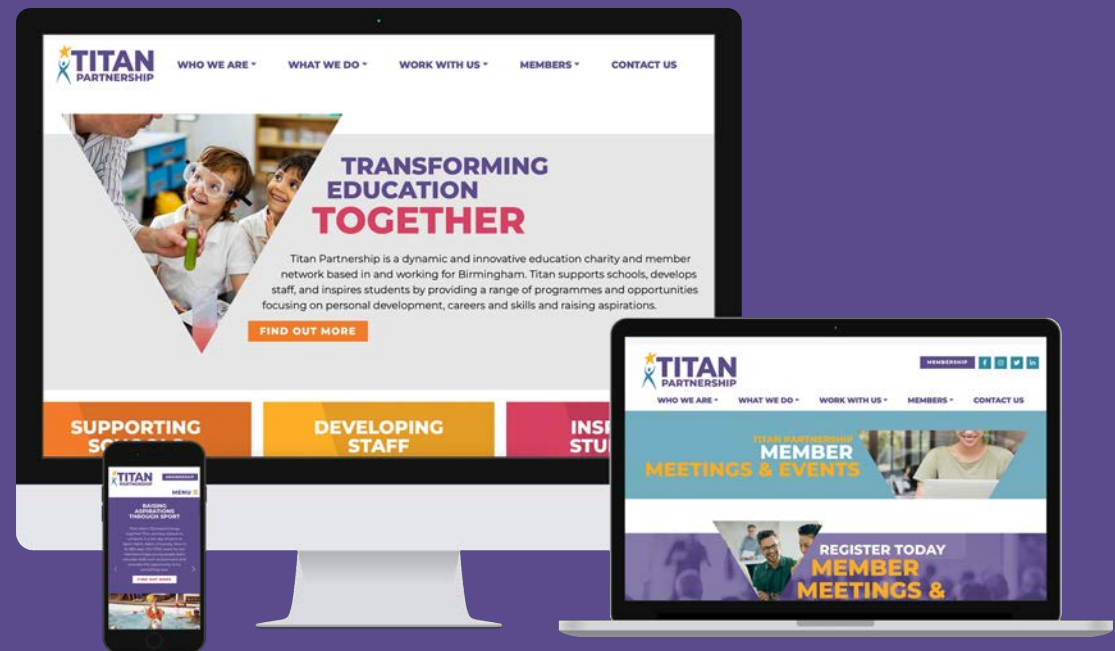

Join us for our focused Titan Spotlight meetings, which shine a light on a key area of education. These meetings provide our members with the latest updates, support, and information to make a difference to their schools, staff, and students. Spread across the academic year, there is something for everyone to get involved with. Delivered by experts with the opportunity to network and collaborate.

- **Artificial Intelligence in Education**
- **Equality, Diversity & Inclusion**
- **Progress 8 and Ofsted**
- **Initial Teacher Training**
- **Assessment Only Route**
- **T-Levels & Apprenticeships**

- **Mental Health & Wellbeing**
- **Child Criminal Exploitation**
- **Financial Planning & TPS**

Our website is your one-stop destination for all things Titan. You can register for upcoming meetings and events, read our latest member news, take advantage of exclusive opportunities and ensure that you never miss a thing!

# BRINGING EDUCATION TOGETHER

Utilising our unique position as a cross-phase education network, we will bring together early years, primary and secondary schools, further education, and higher education to combat the issues affecting Birmingham's education landscape. These networking events will also include influential figures from across various business sectors who want to work with education to enhance the life chances of our young people.

## MEMBER SOCIALS

We wanted to find a way to bring together our community in a less formal setting and to allow leaders to network and build crucial connections, so throughout the academic year, a number of member socials will take place in venues across Birmingham.

## CAREERS FAIRS

We know how important it is for young people to have access to, be inspired to start thinking about, their journey into the world of work. That's why we will be hosting our Primary and Secondary Careers and Skills Fair, which will be jam-packed with employers, organisations, industry leads, FE Colleges, HE universities and apprenticeship providers to help young people choose their path.

The Primary fair also has a transition element to support year six pupils with the move to Secondary school.

FIND YOUR  
FUTURE

## VIRTUAL CAREERS FAIR

Bringing a careers event to your students at any time. Our informative, interactive and inspirational virtual careers fair allows young people to navigate through a virtual careers fair, discover industries, hear from real employers and gain valuable information on what is needed to take that first step on the career ladder. The latest legislation and career information are also available for career leads to use in school.

# EMPLOYABILITY PROGRAMMES & CAREERS SUPPORT

Working with our employer partners and careers organisations, we are able to offer a suite of employability, enterprise, careers, and skills opportunities for our young people to get involved with, be inspired by, and gain valuable skills that they can then use in school and beyond.

Building on our careers and skills fairs, which put employers in front of young people, we will also support the connections between education and business through networking at a careers lead level and through careers talks and visits for students.

Our Careers offer will support our member schools with their own careers activities, ensuring that we can utilise our connections to best support you.

## CONNECTING EDUCATION & BUSINESS

We know schools are keen to provide career enrichment opportunities for their students, both primary and secondary, so we will support schools by connecting with local and national employers, industry figures, and inspirational speakers to continue to inspire them and provide guidance and advice for their journeys.

For Careers Leads, we will use our already successful Careers and Skills Group to further connect with businesses and provide additional networking opportunities to help bring education and business closer together, providing that clear path from education to the world of work.

# RAISING ASPIRATION THROUGH SPORT

Our annual primary school sports event, now in its 19<sup>th</sup> year, brings together 500+ year 5 students from across our network of schools to take part in a variety of sports. The aim is to promote teamwork, resilience, and creativity. Students take part in water polo, dodge ball, football, basketball, and a gym challenge to win points and be awarded medals.

This year, we are also creating a specific day for SEND pupils, making the event more accessible and our biggest yet!

For secondary schools, we will bring together SEND students from across our schools to compete in a day of competitive sports. This event has been carefully crafted to be accessible to students with various special educational needs and provides them with the opportunity to take part in a fun day of sport.

# SEND SUPPORT

We understand the diverse needs of pupils with special educational requirements and are dedicated to providing comprehensive support tailored to the unique challenges faced by our schools. As part of our new expanded SEND offer, we will provide SEN resources, support, intervention, and supervision through our dedicated SENDCos.

We will also be providing a suite of SEND training programmes including Lego Therapy, Talk Boost (EY KS1 and KS2), Colourful Semantics, Attention Autism and Zones of Regulation. Titan manages the Aston & Nechells DLP project, and it's from the lessons learned from this that we know we can provide a valuable and impactful SEND offer to our membership.

# TITAN ALL-STAR STUDENT AWARDS & ART COMPETITIONS

The importance of recognising and rewarding students who have made progress, made a difference, or overcome adversity has always been at the core of our network.

Our Titan All-Star Student Award celebrates a nominated student each month, providing them with a certificate of achievement and a £10 Amazon gift card.

Throughout the academic year, we ask students from across the network to get creative and take part in art-based competitions linked to key awareness days in schools to win gift cards and certificates of participation.

# TITAN AWARDS & CHARITY DINNER

At the end of each academic year, we bring together our members and partners for a night of celebration, recognising our achievements as a network and awarding those staff and students who have made a difference throughout the year.

With a three-course meal, entertainment, and a plethora of student and staff awards, this night is one not to be missed. We will make 2025 our biggest event yet.

## 2025 Award Categories

Primary Student of the Year  
Secondary Student of the Year  
FEHE Student of the Year

Primary Teacher of the Year  
Secondary Teacher of the Year

Support Staff of the Year

ITT Trainee of the Year  
ITT Mentor of the Year  
ECT of the Year

Emerging Leader of the Year  
Leader of the Year

**JustGiving™**

## **RAISING MONEY FOR OUR COMMUNITY**

As a charity, we will continue to raise money for our network to continue offering free or discounted opportunities, events and activities for our members. Following raising over £90,000 to tackle tech poverty by supporting schools and young people with devices, we aim to raise as much money as possible to help our schools with their priorities and needs.

During the academic year, we invite you to participate in our fundraising initiatives, events, and challenges to raise awareness, raise money, and make a difference.

## MEMBER REWARDS

We wanted to find a way to thank all the inspirational and dedicated educators and support staff across our network, so we have partnered with 2,086 organisations, businesses and initiatives across Birmingham to offer discounts and perks just for you. As part of your membership, you will receive 1 free card for the academic year with the option to purchase discounted cards for £10 each. A great way to say thank you to your staff!

Our online supplier list also allows schools to quickly access companies and organisations that have agreed to offer a benefit to our network, whether through discounts, sponsorships or donations, helping you to connect with organisations that want to contribute and support education in Birmingham.

## TALK EDUCATION PODCAST

We invite you to showcase your school, be part of a panel discussion or share your education expertise or experiences on the Titan Talks Podcast, giving an authentic voice for education across Birmingham. Listen live on the radio or download for a time that suits you.

# TITAN TEACHER TRAINING

At Titan Teacher Training, our mission is to equip and empower aspiring teachers with the knowledge, skills, and resilience to excel in the dynamic world of teaching. We do this through our supportive, school-led, and successful teacher training programme, which works with primary and secondary schools across Birmingham and is in partnership with Teach First. Become a Titan ITT partner school by hosting a trainee and helping us create the next generation of outstanding teachers.

## ASSESSMENT ONLY

The Assessment Only (AO) route, in partnership with Arthur Terry Teaching School Hub, provides a pathway for those who have considerable experience of working in schools but who do not possess Qualified Teacher Status (QTS). If you have unqualified teaching staff, paid or unpaid, who you would like to get qualified, this is the route for you, and Titan members get a 10% discount on fees. Candidates will have a maximum of 12 weeks to complete the assessment. This route is therefore only appropriate for candidates who already have evidence proving they meet the Teachers' Standards. The AO route is not suitable for candidates who would require more training.

# MEMBERSHIP FEES

We recognise the increasing costs education establishments face, so for the fifth year, we are freezing our membership fees to ensure that everyone can join our community and collaborate to transform education across Birmingham.

- Some additional activities, other than those included in the Membership Offer may incur an additional charge. Titan members will receive a discount where possible.
- Some activities are dependent on sponsorship and employer support, therefore may vary according to the level of support available.
- In some instances, it may be necessary for your organisation to pay for travel or other student/staff expenses, however, we will always inform you about this at the earliest opportunity.
- All membership fees are exclusive of VAT which will be added to membership invoices when issued.
- Fees are based on single academy status / mainstream schools. Please contact us to enquire about membership fees for MATs
- Members of Titan will receive a discounted rate for top-up fees at Titan St. George's Academy and Titan Aston Academy (Alternative Provision schools).

## MEMBER PORTAL

We are constantly evolving how we communicate with our membership and share information and vital documents, so we are delighted to announce the launch of the **Titan Member Portal**, powered by Governor Hub.

The portal will host all meeting and working group files and information, and members will also be able to integrate our activity calendar into their own but only show the meetings or working groups they have opted to participate in, ensuring you never miss a Titan opportunity and always have the information you need.

## MEMBER UPDATE

Our weekly member update provides our membership with relevant member updates, education news, opportunities, events and a space to celebrate our members.
